MASTECH

AN INTERNATIONAL MARINE TECHNICAL CONFERENCE
27 March 2019, Queen Elizabeth 2, Dubai

MASTECH is home to one of the largest gatherings of the maritime and offshore industry experts in the Middle East region. MASTECH 2019, the fifth edition of the conference will be an excellent opportunity to hear from leading industry and technical experts on a selection of topics that are chosen based on current relevance and interest.

The one-day conference will provide an unrivalled environment to exchange information, showcase latest technical innovations, explore collaborations, solicit business opportunities and take stock of trends and issues at the heart of future strategies.

PANEL TOPICS

- Integrated Fabrication, Logistics and Installation for Complex EPC Projects
- Digitization and Artificial intelligence in the Marine industries
- Innovations in Offshore Structure Design
- Transformation in Maritime Fuel
- Rig Re- Activation

DELEGATE PROFILE

Previous MASTECH editions saw about 1000 delegates attending the panel discussions and presentation of technical papers focusing on next generation ship design, shipping economics, technical innovations in maritime industry, marine heavy lift & transport, Transport solutions for modular projects and industry outlooks for the oil & gas sector. At MASTECH, you will be joining delegates from:

- Oil & Gas
